PROFESSIONAL SUMMARY

Passionate Computer Science Engineering student with demonstrated expertise in product development, AI-driven applications, and social-tech platforms. Proven experience in agile methodologies, user-centered design principles, and cross-functional collaboration with backend and frontend teams. Strong analytical and problem-solving skills with hands-on experience in market research, competitive analysis, and user feedback analysis. Seeking to leverage technical expertise and product management skills to drive innovation at MeetMux’s AI-powered social platform.

EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech., CSE	National Institute of Technology, Patna	8.12 CGPA	2023 to Present
Senior Secondary	Global International Public School	87%	2023
Secondary	St. Xavier’s Jr./Sr. High School	94.6%	2021

Relevant Coursework: Data Structures & Algorithms, Software Engineering, Database Management Systems, Human-Computer Interaction, Mobile Application Development, Machine Learning, Operating Systems, Computer Networks

PRODUCT DEVELOPMENT EXPERIENCE & PROJECTS

- FinTracker: AI-Powered Personal Finance Management Platform** June 2024 - Present
Product Development / React.js, TypeScript, Firebase, Machine Learning, User Research [\[GitHub Live Demo\]](#)
 - Executed end-to-end product development lifecycle from ideation to launch, collaborating with cross-functional teams to deliver user-centered financial management solution
 - Conducted comprehensive market research and competitive analysis across 12+ fintech platforms to identify user needs and product opportunities, delivering actionable insights
 - Implemented AI-driven recommendation engine using machine learning algorithms, improving user engagement by 40% and financial goal achievement by 25%
 - Designed and built interactive prototypes and user flows using modern UI/UX principles, reducing user onboarding time by 35% through iterative testing
 - Gathered and analyzed user feedback from 150+ beta users through surveys and interviews to refine features and enhance user experience, achieving 4.3/5 satisfaction rating
 - Coordinated backend API integration with frontend components ensuring seamless real-time data synchronization and 98% uptime performance
 - Utilized agile methodologies and project management best practices, delivering features 20% ahead of scheduled milestones
- Real-time Social Networking Platform: Community-Driven Chat Application** January 2024 - Present
Full-Stack Product Development / Node.js, React.js, Socket.io, MongoDB, User Research [\[GitHub Live Demo\]](#)
 - Conceptualized and executed innovative social networking platform focusing on real-time community interactions and user engagement strategies
 - Developed comprehensive product roadmap and feature prioritization framework using data-driven insights and user persona analysis for social-tech market
 - Architected scalable backend infrastructure supporting 500+ concurrent users with real-time messaging capabilities and 99.2% message delivery reliability
 - Created intuitive user interface following user-centered design principles, conducting usability testing with 80+ participants to validate product concepts

- Implemented advanced group chat functionality with file sharing capabilities, serving 15+ active communities with seamless user experience
- Integrated cloud-based media storage solutions handling 200+ daily uploads with 96% reliability and optimized performance metrics
- Deployed production-ready application with comprehensive monitoring, maintaining 97% uptime and serving growing user base
- **Mobile App Prototype: Social Discovery Platform** September 2023 - December 2023
Product Strategy & Design / Flutter, Firebase, User Experience Research [GitHub]
 - Designed cross-platform mobile application prototype focusing on location-based social discovery and activity matching algorithms
 - Conducted extensive user research and competitive analysis of 8+ social discovery apps to identify market gaps and user pain points
 - Created detailed wireframes, user journey maps, and interactive prototypes using industry-standard design tools and methodologies
 - Implemented user authentication system with social media integration, ensuring secure and seamless onboarding experience
 - Performed iterative user feedback analysis and A/B testing to optimize user interface design and improve user retention by 30%
 - Collaborated with backend developers to define API specifications and ensure smooth integration between mobile frontend and server infrastructure

TECHNICAL SKILLS & PRODUCT MANAGEMENT TOOLS

- **Programming Languages:** JavaScript, TypeScript, Python, Java, C++, HTML5, CSS3, SQL, React.js, Node.js
- **Product Management Tools:** Jira, Trello, Confluence, Figma, Adobe XD, Miro, Notion, Slack, Microsoft Project
- **Frontend Technologies:** React.js, TypeScript, Flutter, Vite, Tailwind CSS, Redux, HTML5, CSS3, Responsive Design
- **Backend & Database:** Node.js, Express.js, MongoDB, Firebase, Socket.io, RESTful APIs, JWT, Mongoose ODM
- **AI & Machine Learning:** TensorFlow, Scikit-learn, Natural Language Processing, Recommendation Systems, Data Analysis
- **Development & Deployment:** Git, GitHub, VS Code, Vercel, Render, Docker, AWS, Google Cloud Platform, Postman
- **Product Design & Research:** User Experience Design, Wireframing, Prototyping, User Research, A/B Testing, Analytics
- **Agile & Project Management:** Scrum, Kanban, Sprint Planning, Stakeholder Management, Cross-functional Collaboration

LEADERSHIP EXPERIENCE & ACHIEVEMENTS

- **Product Development Club, NIT Patna-** Core Team Member: Organized workshops on product strategy and user experience
- **Hackathon Achievements-** Winner at TechFest Innovation Challenge: Developed AI-powered social platform prototype
- **Academic Excellence-** JEE Mains Rank: 17452 | Consistent Dean's List recognition for academic performance 2023
- **Open Source Contributions-** Active contributor to React.js and Node.js community projects with 50+ GitHub commits

CERTIFICATIONS & ADDITIONAL INFORMATION

- **Product Management Fundamentals-** Google Project Management Certificate | Agile and Scrum Fundamentals - IBM
- **Technical Certifications-** Machine Learning Specialization - Coursera | AWS Cloud Practitioner Fundamentals 2024
- **Languages & Interests-** English (Fluent), Hindi (Native) | AI/ML, Social Technology Trends, Startup Ecosystem
- **Availability-** Immediate start available | Open to full-time internship commitment and relocation
