PROFESSIONAL SUMMARY

Passionate Computer Science student with hands-on experience in product development, AI-driven applications, and social-tech platforms. Proven expertise in agile methodologies, user-centered design principles, and cross-functional collaboration with backend and frontend teams. Strong analytical and problem-solving skills with experience in market research, competitive analysis, and user feedback analysis. Seeking to leverage technical expertise and product management skills to drive innovation at MeetMux's AI-powered social platform.

EDUCATION

Bachelor of Technology in Computer Science Engineering *Expected May 2025*
Indian Institute of Technology (IIT) Delhi *CGPA: 8.7/10*

- **Relevant Coursework:** Software Engineering, Human-Computer Interaction, Database Management Systems, Machine Learning, Mobile Application Development, Data Structures & Algorithms
- **Academic Projects:** AI-driven recommendation systems, social networking platforms, mobile app prototypes

TECHNICAL SKILLS

Programming Languages:	Python, Java, JavaScript, TypeScript, C++, SQL, HTML5, CSS3
Frameworks & Technologies:	React.js, Node.js, Flutter, Django, Flask, MongoDB, PostgreSQL, Firebase
Product Management Tools:	Jira, Trello, Confluence, Figma, Adobe XD, Miro, Notion, Slack
AI & Machine Learning:	TensorFlow, PyTorch, Scikit-learn, Natural Language Processing, Recommendation Systems
Development Tools:	Git, Docker, AWS, Google Cloud Platform, REST APIs, Agile Methodologies
Design & Prototyping:	User Experience Design, Wireframing, User Flow Design, Prototyping, User Research

PROFESSIONAL EXPERIENCE

Product Development Intern *June 2024 - August 2024*
TechConnect Solutions Pvt. Ltd. *Bangalore, India*

- Collaborated with product managers, designers, and developers to conceptualize and execute 3 innovative features for social networking mobile application, resulting in 25% increase in user engagement
- Conducted comprehensive market research and competitive analysis across 15+ social-tech platforms to identify user needs and product opportunities, delivering actionable insights to leadership team
- Built interactive prototypes, user flows, and wireframes using Figma and Adobe XD to visualize product concepts, reducing development time by 30%

- Gathered and analyzed user feedback from 500+ users through surveys and interviews to refine features and enhance user experience, achieving 4.2/5 user satisfaction rating
- Worked on end-to-end lifecycle of product features from ideation to development, testing, and launch using agile methodologies and Jira for project management
- Coordinated with backend and frontend teams for smooth API integration and UI/UX implementation, ensuring seamless user experience across mobile platforms

Software Development Intern

InnovateAI Labs

May 2023 - July 2023

Remote

- Developed AI-driven recommendation engine for social platform using Python, TensorFlow, and machine learning algorithms, improving user matching accuracy by 40%
- Implemented user-centered design principles to create intuitive mobile app interfaces, conducting user research and usability testing with 200+ participants
- Participated in strategic discussions with product team to align development roadmap with company vision for AI-first social technology platform
- Utilized agile methodologies and collaborated in cross-functional teams using Trello and Slack for project coordination and communication

ACADEMIC & PERSONAL PROJECTS

AI-Powered Social Activity Matching Platform

January 2024 - April 2024

Full-Stack Development & Product Design

- Designed and developed AI-driven social platform connecting users based on shared interests and activities using React.js, Node.js, and MongoDB
- Implemented machine learning algorithms for intelligent user matching and activity recommendation, achieving 85% user satisfaction in beta testing
- Created comprehensive user flows, wireframes, and prototypes using Figma, conducting user research with 100+ participants to validate product concepts
- Integrated backend APIs with frontend UI/UX components, ensuring seamless user experience and real-time data synchronization

Mobile Social Networking App

September 2023 - December 2023

Flutter & Firebase Development

- Built cross-platform mobile application using Flutter and Firebase for real-time social interactions and community building
- Implemented user authentication, real-time messaging, and social features following user-centered design principles
- Conducted competitive analysis of 10+ social networking apps to identify market gaps and user pain points
- Performed user feedback analysis and iterative testing to enhance user experience and app performance

- Conducted comprehensive market research and competitive analysis for emerging social-tech platforms, identifying key trends in AI-driven social networking
- Developed product roadmap and feature prioritization framework using data-driven insights and user persona analysis
- Created detailed user journey maps and wireframes for enhanced user experience in social discovery applications

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- **Product Management Club, IIT Delhi** - Vice President (2023-2024): Led 50+ member club focusing on product strategy, user research, and agile methodologies
- **TechFest Innovation Challenge** - Winner (2024): Developed AI-powered social platform prototype, recognized for innovative approach to user matching
- **Google Developer Student Club** - Core Team Member (2022-2024): Organized workshops on mobile app development and AI technologies for 200+ students
- **Hackathon Participant** - Multiple wins in social-tech and AI-driven application development competitions

CERTIFICATIONS & ACHIEVEMENTS

- **Certified Product Manager** - Product School (2024)
- **Google UX Design Certificate** - Coursera (2023)
- **Agile and Scrum Fundamentals** - IBM (2023)
- **Machine Learning Specialization** - Stanford University, Coursera (2023)
- **AWS Certified Cloud Practitioner** - Amazon Web Services (2024)
- **Dean's List** - IIT Delhi (2022, 2023, 2024) for academic excellence

ADDITIONAL INFORMATION

- **Languages:** English (Fluent), Hindi (Native), Spanish (Conversational)
- **Interests:** AI and Machine Learning, Social Technology Trends, User Experience Research, Mobile App Innovation, Startup Ecosystem
- **Availability:** Immediate start, flexible for full-time internship commitment
- **Location:** Open to relocation for internship opportunity
